JDE 1000: Ethics in Research Seminar Winter 2020
Registration is not required. Attendance will be recorded at the seminar. MASc, PhD and MHSc students are required to attend the ethics seminar during the first year of registration in their program. There will be another session offered in the Fall of 2020 (to be scheduled)

Some reference materials for the seminar are available in the Faculty of Applied Science and Engineering website at: http://gradstudies.engineering.utoronto.ca/ethics-intellectual-property/
Reference to the following two cases will be made in the seminar, and these should be previewed before attendance.

1. The Dr. Nancy Olivieri Case
2. The Schoen Affair at Lucent

In 2019, Science Magazine, one of the leading peer reviewed journals, did a webinar called, Fighting Fake Science with the objective of discussing the themes raised. A recording of the webinar is here Some of the same themes discussed in the webinar are similar to the discussion we will be having. We highly recommend listening to the webinar before attending this lecture.

We have also created a form in an attempt to get to know you and any issues you might be having. This is an optional way for you to bring forth some challenges you may be having in an anonymous way. No names will be collected or shared; any names added in the form will be changed prior to the lecture, but this is a way to tie together the real-world with the theoretical one. You can find the form here: https://forms.office.com/Pages/ResponsePage.aspx?id=JsKqeAMvTUuQN7RtVsvSEF_z13PW6hGi3p8HyKIMl1UN0RMNzJUR0pBNE5NTFFSNE8zT0UwSU03Qy4u

*Note that it is mandatory for all MASc, PhD and MHSc students to attend this seminar, and to leave a record of their attendance, to meet degree requirements.*

Please note, students who arrive late will not be permitted to enter and participate.

Date: Thursday March 26, 2020
Time: 4 to 6 pm
Room: MS3154

As a reminder, this lecture will be offered again in the fall of 2020, and in Winter 2021. Remember this is a requirement for graduation and we recommend you doing it early in your academic career.

If you have any questions please do not hesitate to reach out to Sasha Gollish, one of the course facilitators, @s.gollish@mail.utoronto.ca.

We look forward to seeing you on March 26th.
